Organic raw milk and cream, pasteurized yogurt and cheese, fresh eggs, grass-fed beef, pastured poultry, all-natural pork, and organic vegetables

**Brookford Farm**  
is a certified organic farm practicing sustainable agriculture. By rotating our animals and vegetable crops among our 400 acres of certified organic land, the soil is enriched giving rise to stronger crops in the future. Our goal is to be completely self-sustaining.

At the farm you can purchase raw, unprocessed milk and cream that is mere hours old from our small herd of happy, healthy cows. We also offer beef, pork, chicken and eggs from naturally-raised animals, yogurt, cheese, and organic vegetables.

## Our Products:

We sell a variety of dairy, meats and vegetables at the farm.

Our store is open 24 hrs a day, 7 days a week.

Come by sometime!

**Dairy:** We offer raw milk and cream, pasteurized yogurt and cheese from our small herd of happy, healthy grass-fed cows.

**Meat:** We raise beef, chicken and pork. Our animals are raised in a humane, all-natural way: the beef is grass-fed, the pork receive an all-natural diet, and the chickens are pastured in addition to supplemental grain feeding. We never use antibiotics or hormones.

**Eggs:** We sell organic eggs from our pastured hens. The chickens follow the cows on the pasture to spread the manure, enrich the soil, and ensure sustainability.

**Vegetables:** We offer organically produced vegetables. Selections change seasonally from tender greens in the spring, to bountiful produce in the summer and fall, and root vegetables in the winter.

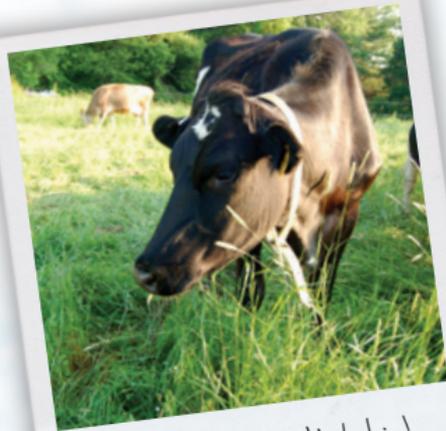

**CSA:** We are offering a 38-week CSA which will provide a great variety of food. Weekly shares include vegetables, dairy products, eggs, pastured chicken, grass-fed beef, and honey. All items are organically produced here on the farm.
